

✦ Insights by Ascent Cloud

Introducing Ascent Cloud Insights, an AI-powered layer of intelligence that transforms your existing data into clear execution strategies.

PLAN

Bring your sales plan to life with analytics + AI

See your territories in a whole new way with AI-powered Thematic Maps and model comparison summaries.

EXECUTE

Optimize field sales with smart recommendations

Prioritize key accounts and contacts, and maximize your time on the road with Salesforce-native location intelligence.

GROW

Empower your sales team with manager recommendations

Focus your coaching efforts in the right areas with dynamic insights about what drives each rep on your team.

Insights is available across our suite of sales performance management solutions to help you:

PLAN WITH PRECISION

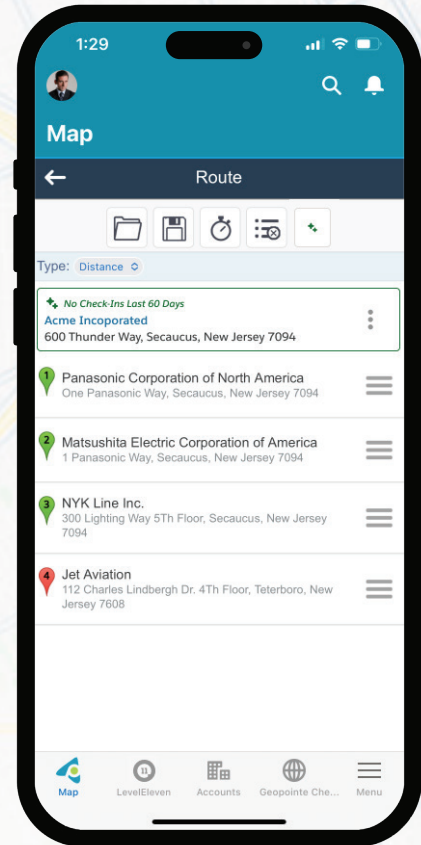

Customizable Thematic Maps and AI Model Comparisons unlock hidden insights and enable you to make smarter decisions with Territory Planner.

EXECUTE WITH EFFICIENCY

Visual insights and intelligent Recommendations in Geopointe can accelerate your team's outreach and help you work smarter, not harder.

GROW WITH INTELLIGENCE

Smart conversion metrics and personalized Recommendations for managers in LevelEleven help you level up your sales team's performance.

Agentforce Actions for Geopointe and LevelEleven are also included!

MEET YOUR AI TRAVEL AGENT

Streamline field sales and trip planning with an intelligent travel agent at your command.

- ✓ AI-driven efficiency
- ✓ Seamless Geopointe integration
- ✓ Hands-free mapping and geocoding

MEET YOUR AI MANAGER COPILOT

Drive productivity, improve team morale, and celebrate your reps' success without leaving Salesforce.

- ✓ Seamless badge recognition
- ✓ Instant employee engagement
- ✓ Targeted coaching recommendations

Do more with your Salesforce data with Insights by Ascent Cloud.
