

Build, Balance, and Optimize Territories Without Being a Data Scientist

BUILD

Build territories combining data from multiple sources with flexible import options, outside of existing CRMs.

BALANCE & OPTIMIZE

Automatically optimize your territories, providing balanced opportunities for your team and maximizing reach across target markets.

ASSIGN

Publish directly to Geopointe, approving new assignments and updating existing territory assignment plans.

Whether it's your first time territory planning or you're reorganizing, Territory Planner by Ascent Cloud is a must-have for your field sales strategy.

OPTIMIZE TERRITORIES WITH EASE

Build and balance territories faster with automatically generated shapes based on the criteria that matters to you.

CONSOLIDATE QUOTA PLANNING

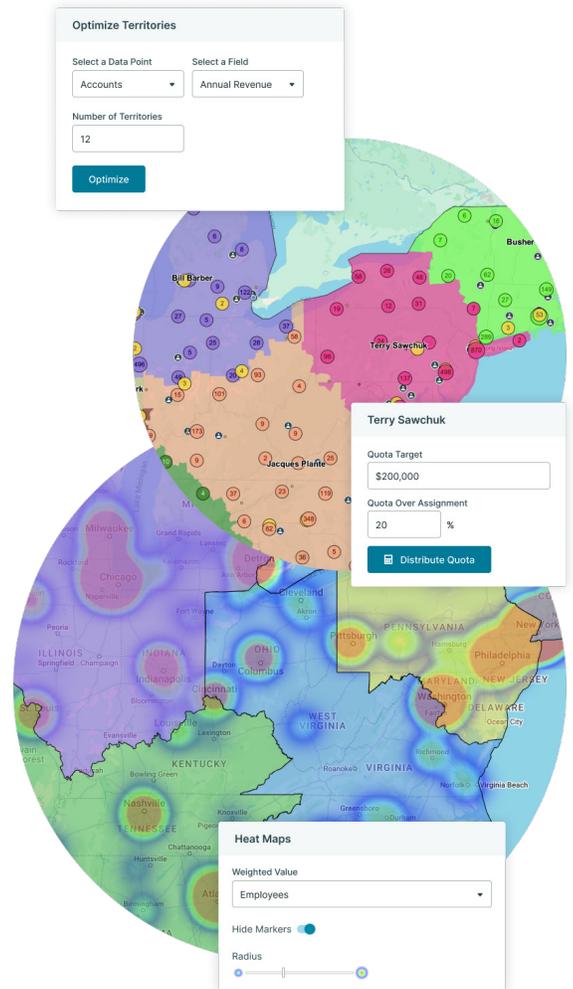

Streamline your quota and territory planning processes with everything in one place for easy access and easier management.

BRING YOUR DATA TO LIFE

Harness the power of AI with Thematic Maps and use color-coded overlays and shape-based data to make data-driven decisions.

But wait, there's more! Territory Planner also includes these popular features:

- Data Import and CSV Exports
- Data Visualization
- Territory Model Editor
- Hierarchical Territory Building
- Shape Library
- Territory Shape Editor
- Clone Models
- Seamless Integration with Geopointe

"They have the most sophisticated features making territory planning and administration much less manual and time-consuming. Their willingness to listen to customer feedback and integrate that feedback into their product updates in a timely manner is unmatched."

- Elena Bethmann, Business Operations

"Building a territory plan for over 150 territories allows us to be scalable and eliminate manual work."

- Large Enterprise Internet Software & Services Company

IF YOU FAIL TO PLAN, YOU PLAN TO FAIL.
